HOW WE WORK

Focus on building your brand. We'll do the rest.

Full-service apparel and accessory production, storefront, warehousing, and fulfillment, for artists, brands, and teams who'd rather create than operate.

NET SALES		COST OF GOODS		PRODUCT NET
Sales – discounts – refunds	−	**Actual production and freight costs**	=	**What we split**

Our cut comes out of profit, not your top line, so we only make money when you do. No retainer, no markup on production.

You 70% **HPD 30%**

01 · THE ROLE

You bring the vision, we'll help bring it home.

You show up with finished artwork or a direction you want to chase. From there we handle the whole machine: complete product sourcing, optimizing your Shopify storefront, warehousing, and shipping every order.

We don't design from nothing. Our job is to take what you've got and build the best possible version of it, with your bottom line in mind.

02 · THE MONEY

Simple, and on your side.

YOUR MONEY	Banking is tied to **your** Shopify. Every customer payment lands in your account. We never sit between you and your sales.
PRODUCTION	You front production at our **actual cost**: blanks, printing, freight, importing. What we pay is what you pay, no markup, plus Nevada sales tax until your resale certificate is on file. Billed as goods are approved for production.
OUR SHARE	On the **1st of each month**, we invoice our 30% of product net, plus postage reimbursement at our exact cost.

03 · BUILT FOR PRE-ORDERS

Your customers fund the run.

Most of our clients run pre-orders, and that's by design. When you pre-sell, your customers' money funds production **before** we make a thing. No capital tied up in blanks, no warehouse full of stock that didn't move. We build to demand, not to a shelf.

04 · WHAT'S INCLUDED

Clear lines. No surprises.

IN THE 30%

- + Running your store & managing product lines
- + Coordinating production end to end
- + Warehousing active inventory
- + Picking, packing & fulfilling orders
- + Customer service: returns, exchanges & refunds, handled directly with your customers via your support inbox

BILLED SEPARATELY, AT COST

- › **Production & postage**: passed through at our exact cost, never marked up.
- › **Return shipping**: passed through at our exact cost. Handling the return with your customer is part of your 30%.
- › **Storage**: free for the first 60 days while inventory moves. Stock that sits longer is billed at standard rates ($20/pallet or $3/bin per month). Most pre-order clients never see this.
- › **Monthly minimum**: a $250/month floor keeps your account active and supported. It only applies if your 30% share for the month comes in under it.

05 · GETTING STARTED

$750

one-time initiation

Covers all the up-front setup: your Shopify store build, brand and product-line configuration, account setup, and onboarding.

It's non-refundable, but if you move into production within 60 days, half credits toward your first launch. It's earnest money: it goes to work for you the moment you're ready to build.

06 · SIGNED TO LIVE

The whole run.

01

Kickoff & setup

We're added as an admin on your Shopify, given access to your dedicated customer service inbox, and connect our fulfillment system. Everything we need to run the store, support your customers, and ship orders.

02

Build the product

You bring artwork or direction. We source the right blanks and dial in the best version: materials, decoration method, samples.

03

Launch prep

We set up your product line in your store, launch-ready.

04

Production

Goods get made, billed as produced at our cost.

05

Live & shipping

Your launch goes live; orders ship from our warehouse.

06

Ongoing

Monthly billing, restocks, and your next launch.

07 · ONBOARDING

Who does what.

STEP	HOUSE PARTY DISTRO	YOU
Initiation	Build your Shopify store, set up your brand and product lines, and open your account.	Pay the $750 one-time initiation.
Store access	Connect our fulfillment system to your store.	Add us as an admin on your Shopify.
Customer service	Handle returns, exchanges, and refunds with your customers.	Give us access to your dedicated support inbox.
Nevada registration	Provide our warehouse address for your registrations.	Register for a Nevada business license and a Nevada sales tax permit.
Resale certificate	Stop charging Nevada sales tax on your production once it's on file.	Send us a completed Nevada resale certificate (TAX-F005) with your permit number.
Shopify tax		Turn on Nevada tax collection in Shopify with your permit number.
Product	Source the blanks and dial in materials, decoration, and samples.	Bring artwork or direction, and approve goods for production.
Launch	Set up your product line in your store and ship every order from our warehouse.	
Ongoing	Invoice our share on the 1st of each month.	File and pay your sales tax, and track other states you may owe in.

Storing inventory in our Las Vegas warehouse means your business collects Nevada sales tax from the first Nevada order. You're the seller, so collecting and filing stays with you. This is general information, not tax advice; confirm with your accountant.
